SUMMARY driven Information Systems Management student with hands - on experience in full - stack web development, database administration, and foundational IT support. Proficient in engineering dynamic web applications using MVC frameworks and managing non - relational database structures with MongoDB and Studio3T. Demonstrated capability to translate complex datasets into actionable business intelligence using Tableau and IBM SPSS. Combines strong technical troubleshooting experience from an enterprise IT internship with proven leadership capabilities. Eager to leverage these analytical, technical, and communication strengths to deliver measurable value in System Analysis, IT Support, or IT Consulting roles.

EDUCATION

Universiti Teknologi MARA (UiTM), Puncak Perdana, Bachelor of Information Science (Honours) 2025 – Present

- CGPA: 3.34 / 4.00

Universiti Teknologi MARA (UiTM), Rembau, Diploma in Information Management 2022 – 2025

- CGPA: 3.16 / 4.00
- Official Graduation Scroll Awarded: April 8, 2025

PROFESSIONAL EXPERIENCE

Sekolah Kebangsaan Batu Kikir Jul 2024 – Sep 2024
IT Support & Educator Intern

- Resolved diverse hardware and software issues for administrative and student desktop workstations to ensure seamless school - wide system availability.
- Prevented daily technical network downtime by administering campus audiovisual networks and conducting proactive system updates.
- Spearheaded the end - to - end launch of the school's multimedia digital broadcast channel (TVPSS SKBK) across social media networks, directing high - engagement video production using Adobe Premiere Pro, CapCut, and Canva.
- Instructed class cohorts in computing, electronics, and design modules as a substitute teacher for the 'Reka Bentuk Dan Teknologi' (RBT) curriculum, translating complex technical concepts into accessible educational material.

PROJECTS

Misa Cinema MongoDB, Studio3T
Web Application & NoSQL DBMS (IMS560: Advanced Database Management System)
Developed an interactive digital movie web application featuring a highly responsive, custom - built front - end interface.

- Architected a custom NoSQL database backend entirely from scratch using MongoDB and Studio3T, optimizing schema configurations for low - latency queries and fast data handling.

Taskline Manager CakePHP, MongoDB, Studio3T
Full - Stack Web Application (IMS566: Advanced Web Design)
Engineered a secure, full - stack task - tracking web application utilizing the CakePHP MVC architecture and framework workflows.

- Designed and implemented the system database backend from scratch using MongoDB and Studio3T to streamline complex data setups and accelerate query execution performance.

Data Analytics & Dashboard Visualization

IBM SPSS, Tableau

Business Intelligence Portfolio (IMS563: Data & Information / IMC501: Information Analytics)

Executed advanced data mining, predictive modeling, and statistical analysis in IBM SPSS to accurately detect crucial trend patterns for enterprise tasks.

- Transformed multi-layered, messy raw datasets into clean, interactive visual stories by building automated data-driven dashboards using Tableau.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Master of Ceremonies (Emcee)

May 17, 2026

Jasmine E - Sport League — Universiti Teknologi MARA (UiTM), Kampus Puncak Perdana

- Selected as official emcee to host and facilitate the tournament. Recognized by the Principal of Jasmine College for demonstrating exceptional public speaking, community leadership, and audience management strengths.

Active Participant

2024

Champion Student League — Universiti Teknologi MARA (UiTM), Cawangan Negeri Sembilan

- Participated and collaborated within student team leagues to complete challenges under the endorsement of the UiTM Negeri Sembilan Rector.

SKILLS

Web & Frameworks: HTML & CSS, PHP, CakePHP, Laragon, phpMyAdmin

Databases & Programming: MongoDB, Studio3T, Java, C++

Data Analytics & BI: Tableau, IBM SPSS, Microsoft Excel (Advanced Pivot Tables & Analytical Tools)

IT Support & Systems: Hardware & Software Troubleshooting, OS Deployment (Windows & Linux), Enterprise Helpdesk Operations, Basic Networking (LAN, TCP/IP)

Developer & Project Tools: VS Code, Git/GitHub, Microsoft Project, Microsoft Teams, Microsoft Office 365 Suite

Languages: Malay (Native), English (Professional Working), Arabic (Conversational)
